

Good evening all,

I apologize for the very short notice on this. This draft bill in the House Ways and Means Committee is quite a significant change to how reappraisals are to be done in Vermont. I am attaching the draft bill, and a link to same, as well as a link to the committee meeting on 2/1/2023 in which this was discussed.

I hope to have a conversation about this tomorrow at our meeting. Again I apologize for the very short notice, but it is still early in the process and we still have time to make comment to the committee.
